

code/project2/interface.h

```
graph BT; A[code/project2/interface.h] --> B[code/project2/interface.cpp]; A --> C[code/project2/main.cpp];
```

The diagram illustrates a C++ project structure. At the top, a gray box represents the header file `code/project2/interface.h`. Below it, two white boxes represent source files: `code/project2/interface.cpp` on the left and `code/project2/main.cpp` on the right. Two blue arrows point from the bottom of each source file box up to the header file box, indicating that both source files include the header file.

code/project2/interface.cpp

code/project2/main.cpp
